The Workshop, sponsored by the League of Women Voters of the Charleston Area and our partners, is part of *The School Board Project: Become a Voice for Our Children*.

We believe:

- ✓ Quality public education is essential for a strong, viable and sustainable democratic society.
- ✓ All our children deserve the opportunity for an excellent education.
- ✓ Whatever other educational opportunities there may be, the vast majority of our children depend on public schools.
- ✓ School boards are critical decision makers in this process.

The League works to strengthen democracy and empower citizens. It does not endorse candidates for political office. For information about The School Board Project, visit http://lwvcharleston.org/school_board_2018.html.
